PROFESSIONAL PROFILE

A motivated 2nd-year B.Sc. student in Electrical and Electronic Engineering at Jamalpur Science and Technology University (JSTU). Passionate about core circuit fundamentals, electrical machinery, and software integration. Possesses strong analytical problem-solving capabilities, C/C++ programming fundamentals, and CAD modeling skills, actively seeking opportunities to apply engineering theory to real-world technological solutions.

EDUCATION

Bachelor of Science in Electrical & Electronic Engineering (EEE)
2024 – Present

Jamalpur Science and Technology University (JSTU)

- Currently enrolled in **2nd Year, 1st Semester**.
- Key Coursework: Circuit Analysis, Analog Electronics, Electrical Machines, Computer Programming (C/C++), Differential Equations.

TECHNICAL SKILLS

ELECTRICAL & ELECTRONICS

Circuit Analysis | Analog Electronics | Electrical Machines

PROGRAMMING & SOFTWARE

C | C++ | AutoCAD | HTML5 / CSS3

ACADEMIC & TECHNICAL PROJECTS

Personal Developer & Engineering Portfolio Website
2026

- Designed and deployed a responsive, dark-themed personal portfolio website hosted on Netlify platform.
- Implemented clean HTML5 markup and modern CSS3 styling to showcase academic credentials, project highlights, and technical expertise.

Circuit Simulation & Analysis Assignments
2025

- Performed node and mesh analysis for complex AC/DC circuits and verified network theorems.
- Designed schematic layouts using AutoCAD for standard electrical power and control circuit diagrams.

C/C++ Algorithm Implementations
2024 – 2025

- Developed structured CLI applications for mathematical problem solving, linear matrix operations, and basic data structures.
